SUMMARY:

I am a hardworking individual, fast learner and a great team player. I love helping others and making a difference. After years in the U.S. Armed Forces, IT, and healthcare, I am ready to make an impact in a new way. My experience in the military, IT and nursing has molded me into a great team player, critical thinker, and problem solver. At the end of the day, my greatest reward is to know that I have made a difference in someone's life and I have accomplished something. As a Web Developer, I am ready to utilize my skill and passion in healthcare and technology to improve people's lives. With my experience and motivation, I will make a great fit into your company and a vital member of the team.

SKILLS:

Web Developing: HTML5, CSS3, JavaScript, jQuery, etc… Computer hardware and software proficiency, Windows Applications, Unix, Linus, Patient Care, Epic EMR Power User, Veterans Information Systems and Technology Architecture (VistA) EMR, Training and Assisted in Training Staffs with Latest Tools and Applications, Managing and Delegating.

EXPERIENCE:

Free Code Camp   May 2017 - Present
Student-Computer Software Engineering/Full Stack Development

                                                          Online, San Francisco, CA

- Free Code Camp an open source community that helps people like myself, who is passionate about coding, to learn to code, then practice by building projects for nonprofits. Curriculum allows me to learn, practice what I have learned, and using them to build projects for nonprofits. In return, I earn certifications like Front End Development, Data Visualization, Back End Development, and Full Stack Development. FCC also help me with interview and other developing skills which can make me a more productive and marketable developer.
- My progress can be view at: www.freecodecamp.com/kenvng

Freelance Web Developer   April 2016 - Present
Self Employed   Hanson, MA

- Using the latest technology in web developing (HTML5, CSS5, WordPress, GitHub, JavaScript, jQuery, SQL, PHP) to develop web pages, web sites, and landing pages for personal and business use to improving everyday life. Example: vukendiesel.com, dealbountyhunter.com.

Convention Data Services   September 2017 – February 2018
Associate Web Developer   Bourne, MA
- Build, unit test, deploy, and maintain client registration/event web sites using HTML5, CSS5, JavaScript, jQuery, ASP, T-SQL, PHP, SVN, JIRA.
- Serve as a primary or secondary technical contact for internal staff (project managers, Q/A, onsite staff, etc.) and external staff (clients).
- Act as CDS liaison for technical issues.
- Attend all event-specific, Agile/Scrum and company meetings.
- Assisting in developing new framework using NODE.js, REACT, and ANGULAR.

IT Support-Application Service-QA, Intern   June 2016 - September 2016
DentaQuest   Boston, MA
- As an intern with DentaQuest, I have an opportunity to learn programming using C#, SQL database and query, and **Agile/Scrum** software developing methodology. I am also engaging in QA project and QA team meeting with staffs.

Front End Web Developing, student   January 2016 – April 2016
General Assembly   Boston, MA
- As a student at GA for a period of 14 weeks. First 4 weeks I was with Web Development Immersive and 10 weeks with the Front End Web Developing. During this time, I learned valuable skills and experiences in web designing by using up to date technologies, HTML5, CSS3, JavaScript, SASS, Bootstrap, jQuery, AJAX, JSON, APIs, Ruby, Git, and Github. While there, I engaged in many class assignments and projects. These assignments and projects can be viewed at my personal website: www.vukendiesel.com.

WebMaster/Computer System Specialist   March 2001 – May 2010
Vietnamese American Civic Association   Dorchester, MA
- Repairing, trouble-shooting, installing, and updating agency's end-user computers and network devices. Training staffs in system and internet security.
- Maintaining and updating agency's website using Dreamweaver, HTML, CSS and JavaScript.

Web Master/Computer Systems Specialist   March 2000 – March 2001
State Office for Minority and Women Business Assistance/SOMWBA
                                                          Boston, MA
- Single-handedly designing, maintaining, and updating agency's website using Dreamweaver, HTML, CSS and JavaScript.
- Working with IT department in maintenance of the agency's SQL and Exchange server and networks. Trouble-shooting end-user issues and database entry. Conducting trainings of new and existing employees on MS products, internet, intranet, and company related software. Performing software testing and installation of new software to upgrade agency's applications to current standards.
- Assisting software developers in testing for bugs in agency new application.
